

THE PROBLEM – High-Tech Trash

E-Scrap is the fastest growing solid waste stream!

41.1 million desktops & laptops - where does it go?

The EPA estimates that 29.9 million desktops and 12 million laptops were discarded in 2007. That's over 112,000 computers discarded per day!

400 million units of e-waste -plenty to recycle!

In a 2006 report, the International Association of Electronics Recyclers projects that with the current growth and obsolescence rates of the various categories of consumer electronics, (a broader list than the EPA used above, including DVDs, VCRs, mainframes) somewhere in the neighborhood of 3 billion units will be scrapped during the rest of this decade, or an average of about 400 million units a year.²

Over 3 million tons of e-waste disposed in 2008 in the USA - that's not enough!

In 2008, we generated 3.16 million tons of e-waste in the US. Of this amount, **only 430,000 tons or 13.6% was recycled**, according to the EPA. **The rest was trashed - in landfills or incinerators.**

Selected consumer electronics include products such as TVs, VCRs, DVD players, video cameras, stereo systems, telephones, and computer equipment.³

- 60% of teens "own" a desktop/laptop computer
- 74% of teens own an iPod or mp3 player
- 71% of teens own a cell phone
- 88% of parents own a cell phone
- 77% of teens own a game console like an Xbox or a PlayStation
- 74% of teens own an iPod or mp3 player
- There are 4 billion cell phone users in the world today

THE SOLUTION

Creative Recycling Systems (CRS) provides state-of-the-art lifecycle management solutions for surplus and end of life electronics products, yielding the highest value for our customers and producing the smallest environmental footprint available in the world. Electronics products contain hazardous substances such as lead, cadmium, and mercury. CRS's processes are engineered and constructed to prevent the release of these harmful substances into our environment.

The tools and technology we utilize and develop can and does benefit the global environment, having a far broader impact and reach than just electronics. Our resolve is unwavering and our mission is to bring real solutions that provide awareness and sustainability.

OUR SERVICES

Recycling and Reuse

No Landfill Policy

Data Security

Asset Management

Collections Service and Staffing

Packaging and Removal Service

Logistics Solutions
